

## Additional Resources

### Useful websites

<https://avhs.home-home.org/rehome/> - Home-to-home gives people who can no longer keep their pets the opportunity to find new, loving homes without having to drop pets off at the shelter. Pets go from one home into another. We will market your pet for you, and potential adopters will connect with you through email. There is no fee to use this program, and no rehoming fees are allowed to be collected.

<https://www.auburnvalleyhs.org/adopt-a-pet/> - This is our website where in the top paragraph you can download and use our adoption applications to help find out information about potential adopters and what kind of home they could provide for your pet. Make sure to thoroughly read what the potential adopter has written to see if they are a good match for your pet.

[www.rescueme.org](http://www.rescueme.org) – on this website you're able to post your pet with all their information, rehoming fee, likes & dislikes, and any other valuable knowledge for new owners. Potential homes will contact you and set up a time to meet your pet. A picture goes a long way, so try to find a good one.

[www.craigslist.com](http://www.craigslist.com) – craigslist can be a great tool, make sure to thoroughly vet potential homes by using an application and/or a rehoming fee. Pictures can help animals get interest from potential adopters. Meet at a mutual spot and bring someone with you, which is always recommended with strangers. Not only posting in the pet section, but certain animals might be better listed in the farm & garden section (outdoor cats, farm dogs).

[www.canva.com](http://www.canva.com) – canva provides many free usable flyer templates that can be used to advertise your pet. These can be placed in areas that would have the type of adopters you're seeking. Feed stores, pet stores, outdoor stores, grooming shops, grocery stores, churches, gyms etc.

<https://rehome.adoptapet.com/list-a-pet/step-1> - This link will take you directly to the website to set up a profile for your pet that you are looking to rehome, it advertises that this process should take less than 10 minutes. Adopt a Pet is a website that is used by many shelter and rescue organizations. Potential adopters might already be looking at this website for their future pet so it is a great place to list any animal looking for a new home.

[www.facebook.com](http://www.facebook.com) – There are many rehoming groups on facebook. In the search bar you can search key phrases like “pnw rehoming, Washington state pets rehoming, adoptable animals Washington” or anything similar should provide many places you can post your animal. Examples of groups to post in are Washington State pet Rehoming and Foster Care, PNW Rescue Adopt and Rehoming Network, Northwest Dog and Puppy Rehoming, Pacific Northwest Pets, Dogs Puppies and Pets Washington State, Dogs and Puppies in Oregon & Washington, Washington Pets

[www.nextdoor.com](http://www.nextdoor.com) – This is a website (Or app) that can connect you to people in your neighborhood or surrounding area. You can post locally and hopefully find someone close by that might be interested. This makes meeting up with people easier on both parties.

<https://getyourpet.com> – This website allows you to post your animal to a page where perspective adopters can find them. You will be able to post a photo, adoption fee, and more detailed information about your pet. People need to register to use this site, and they are not given your direct contact information.

## Other Organizations
